

SSHCP Steering Committee 7/19/07

Key Issues/Questions

- **Corridor Width & Landscape Linkages:** Understand the science and reconcile the inconsistency of the corridor and landscape linkage widths in the draft plan.
- **Voluntary SSHCP:** The SSHCP will be a voluntary plan. The group needs to understand/outline how to deal with projects that opt out of using the SSHCP or subscribing to the preserve design within the SSHCP.
- **Lessons Learned:** Are there lessons that can be learned about HCP implementation from successful & unsuccessful HCPs.
