

8. Species Recovery Plans: Should the Conservation Strategy address the individual USFWS species recovery plans as it does the Vernal Pool Recovery Plan?

10. Recovery – v – Mitigation Plan: Understand the implications of stating that the plan will contribute to the recovery of the species verses the mitigation of impacts.

14. Conservation Ratios: Understand the development and justification behind the conservation ratios.

15. Discuss County Ownership: Clarify the acreage and degree to which the County will own and operate preserves verses the use of conservation easements.

16. Above & Beyond: Discuss the above and beyond component to the conservation strategy and the implications it may have for mitigation.
