Dear Parkway Stakeholder,

Thank you for your continued interest and patience in the American River Parkway Plan Update process. As you are aware, County staff have been working with Sharon Huntsman, Center for Collaborative Policy, on the Stakeholder Assessment phase. Ms. Huntsman has met and talked with a number of you.

County staff are working with Ms. Huntsman on finalizing the draft Convening Report, that will then be mailed/e-mailed to you. We are currently meeting with the City of Sacramento to further refine this process. Due to the holidays and other constraints, this is taking longer than was anticipated. The additional input into the stakeholder assessment process will be quite beneficial and we are diligently working to be able to provide a draft Convening Report to you in mid-February, for your review and comment.

I apologize for the delay in providing the report and appreciate your patience and understanding.

If you have any questions or concerns, please contact me at WilliamsSu@SacCounty.net.

Sincerely,

Sunny Williams
Project Manager
